Promotional items in goodie bags	•	•	•	•	•

At Kids on the Block, we are passionate about children's health and well-being. Kentucky has the second highest rate of children overweight and obese in the U.S. Children with a high body weight are more likely to be overweight as adults, and are at an increased risk for health problems such as heart disease and diabetes. Schools frequently request the Childhood Obesity program to be performed to their children.

Some of our most frequently requested topics include:

- Bullies & School Safety
- Combating Childhood Obesity
- Child Abuse Prevention
- Accepting Differences

"I'm always so mesmerized by the puppets. The Kids on the Block programs teach children not only about adversities but it's an important reminder for adults as well. Plus seeing a puppet show makes me feel like I'm a kid again!"

-Kellie McKay
